WEATHER PROBABILITIES.—For this section fair, followed by increasing cloudiness on Tuesday, northeasterly winds.

DEMOCRATIC RALLY.—The spacious headquarters of the Central Democratic Club were thronged on Saturday night, and scarcely standing room was obtainable by many of the enthusiastic democrats who assembled to hear the addresses of the orators of the evening. A brass band and a large orchestra furnished the music and the evening's entertainment was opened by Mr. Samuel G. Brent, president of the club, who in well-chosen remarks introduced to the audience Mr. C. C. Carlin, of this city.

Mr. Carlin said that while he might be termed a youthful orator, yet, in response to invitations from his fellow citizens, he deemed it his duty, and it certainly was his pleasure, to address his fellow citizens on the issues of the campaign, and contribute his best efforts to the success of the principles of democracy in advocating the election of the gallant standard-bearers, Cleveland and Stevenson.

He then took up the force bill, and in an able manner pointed out the degradation which must ensue to the people of the South if such an infamous measure should be enacted, and clearly showed that it was the intention of the republican party to legislate such a measure through Congress if again placed in power. He also demonstrated the outrageous inequalities of the so-called protective tariff, and showed conclusively that its only effect had been to impose hardships and increased taxes upon the workman for the benefit of the rich, and urged the poor man to stop and think and read and he would see clearly that the only hopes he could possibly have for improving his condition were in the support of the democratic platform and the election of the candidates of the democratic party, who would reduce taxation by cheapening the necessities of life and restore harmony to all sections of the country.

Mr. Eugene B. Taylor was next introduced and at once proceeded to enlist the close attention of his hearers by his able handling of the questions at issue between the two political parties. His denunciation of the force bill and appeal to the voters to put their seal of condemnation on such a measure elicited great applause and his dissection of the tariff issues showing the burdens which "protection" imposed upon the poor and the exemptions which it threw around the rich, evidenced close study on the part of the speaker.

The speakers elicited frequent and hearty applause whenever they alluded to Cleveland and Stevenson, and their speeches were, throughout, well received and reflected great credit upon their efforts to place the great issues of the campaign in so clear a light to their fellow democrats.

THE PAULIST'S MISSION.—Rev. Fathers Deshon and Brady, C. S. P., solemnly opened the mission at St. Mary's Church yesterday.

At the High Mass Father Brady preached the introductory sermon, taking his text from II Corinthians, 6th chapter: "For He saith, in an accepted time have I heard thee and in the day of salvation have I helped thee. Behold, now is the acceptable time; behold, now is the day of salvation."

In the evening at 4 o'clock Father Deshon gave an interesting instruction, and at 7:30 p. m. the church was crowded to listen to the first sermon of the mission, which was preached by Father Deshon from the text, "What doth it profit a man to gain the whole world and lose his soul." Though in his seventies, Father Deshon was heard distinctly throughout the large building and was listened to with rapt attention. Like many of the distinguished servants of God, Father Deshon devoted the early part of his life to the profession of the soldier. He graduated at West Point with high honors, but before the war he became a Catholic and soon afterwards joined the distinguished men who gave up all else to follow Christ.

This morning the church was filled at 5 o'clock to hear mass and the instruction, which was most interesting, by Rev. Father Brady. This evening, and each evening of the week, the regular mission services will commence at 7:30.

YESTERDAY dawned dull and dismal, with every indication of a rainy day, but the wind soon changed to the northwest and blew fierce and cold. The clouds in an hour or two had vanished and fair, crisp weather followed. During the morning there were fewer people on the streets than are generally observable at that time on Sundays, but in the afternoon nearly all our own people and many strangers were to be seen going one way or another. In addition to the grave yards and other places, the electric railroad track came in for more than its share of strollers, and until dark the roadway from Royal street to the terminus of the wagonway and footway of the new Hunting creek bridge was dotted with groups of people of both sexes. As has been the case ever since the road was opened for passenger traffic, the electric railway cars were crowded with persons going to and returning from the neighborhood of Mount Vernon, 3,500 persons having been transported. The boats and trains carried average numbers of Sunday travellers. When the wagonway and foot way of the electric railroad bridge over the creek shall have been completed (and there is only about a hundred yards of it to finish) and Wash-

ington or some other street opened to its approach, a pleasant avenue for a drive or a walk will be opened to New Alexandria and lower Fairfax.

HOTEL OPENING.—The old City Hotel, which in former years was so well known as the headquarters of General Washington whenever he visited Alexandria, and which of late years has been used as an auction house, has again passed into other hands and on Saturday night was thrown open to the public by Messrs. Dunn & Waters, who have leased the building for a term of years. The proprietors have thoroughly repaired and are now conducting the hotel on the European plan. The bar is handsomely fitted up and stocked with choice wines and liquors, the reading rooms are spacious and the dining rooms are large and complete. The large crowds which visited the new proprietors on the opening night were entertained by delightful music and a choice collation and all drank the health of the hosts. Mr. E. W. Waters presided at the bar with a number of polite and attentive assistants.

POLICE REPORT.—Last night was clear and cool with five prisoners and one lodger at the station house.

The Mayor this morning disposed of the following cases: Albert Riley, drunk on the street, forfeited \$2.50 collateral.

Wm. Ford, colored, assault on Fanny Boston, and a white man, drunk on the street, \$5 each.

Fanny Boston and a white man, disorderly on the street, \$5 each.

George James and Ed. Clift, disorderly conduct, dismissed.

Martha Haynes, colored, disorderly conduct; W. H. Cookson, drunk and disorderly; Ann Rose and Kate Tyler, all colored, assault on Martha Hoggans and Robt. Taylor, colored, disorderly conduct, \$2 each.

TRINITY M. E. CHURCH was crowded last night with an immense audience to hear Evangelist Isaac Naylor. Nearly an hour before the service was advertised to commence the place was nearly filled, and as they still came trooping in chairs were placed in the aisles and communion rails, but without avail. A great number had finally to stand at the back and on both staircases, while many were unable to catch even a glimpse of the evangelist and were turned away. As everybody was provided with a hymn sheet, the singing was splendid. Mr. Naylor preached an eloquent sermon on "The Day of Wrath" and at the close several persons went forward to the altar and professed conversion. To-night his subject will be "Nothing! Nothing! Nothing!"

PERSONAL.—Mr. L. C. Barley will not speak at the democratic headquarters to-night, as announced, having been called to New York on business. While in New York Mr. Barley will visit the national democratic headquarters.

Mr. Chas. Negley, U. S. Consul at Rio de Janeiro, and his wife are visiting Mr. G. D. Hopkins, Mrs. N's brother.

Rev. John Lloyd, formerly of this city, preached at Christ Church yesterday.

RAIN-MAKING EXPERIMENTS.—R. G. Dyrenforth will shortly establish near Fort Meyer, in this county, a station to be called "Camp Arlington," where during the fall and winter he will conduct a number of experiments in rain-making. No explosions will be made, owing to Mrs. Harrison's illness, but each day a two-man balloon will be sent up for the purpose of recording certain observations regarding the humidity of the atmosphere, etc.

ADDRESSES.—Bishop Walker, of North Dakota, whose "Cathedral Car" service has enlisted the interest of so many, and Bishop Leonard, of Nevada and Utah, will give addresses on frontier life and work in Christ Church to-night at 8 p. m. All those who avail themselves of this opportunity will be well repaid, as they hear the stirring words of those who have made their home among the Indians and Morions.

MORE HOUSES.—Mr. Robert Elliott today took out permits for building three comfortable frame residences on the west side of St. Asaph street, between Wolfe and Wilkes. Mr. Elliott, who is one of Alexandria's progressive young citizens, and who believes in the growth of the city, intends improving the square as he and Dr. Klipstein did Klipstein Terrace.

POSTPONED.—The case of W. P. Graves vs. Captain Marshall, of the schooner Strann, for provisions furnished that vessel last summer while she was detained at quarantine here while her captain was sick with small-pox, was set for trial in the Corporation Court to-day, but on account of the absence of a material witness the case was postponed.

A young Vermont, who was refused by the girl he loved, climbed in through her chamber window a few nights ago, chloroformed her, and tried to steal her bodily from her father's house. But she came to and roused the household with her cries. The authorities lodged the ardent swain in jail, but were perplexed whether to charge him with burglary or abduction.

An aerolite weighing forty-four pounds fell on a farm in Bath county, S. D., the other day. The advent of the stone was heralded by several sharp explosions, which were heard a distance of fifteen miles or more, and in some instances created considerable alarm.

Six tramps made an attack on the town of Milton, Pa., to-day. After they had attempted to murder F. E. Ginter and burn down his store because he refused them groceries, a posse of citizens, with the assistance of the chief of police, captured them. They were committed to the county jail.

Superintendent Byrnes, of New York, to-day nipped in the bud a gigantic scheme of colonization of voters by taking the necessary steps to make more than a thousand arrests of negro laborers who have been taken to New York from Philadelphia. Steps will also be taken to prevent the registry of any more of the colonizers.

In the Episcopal Convention in Baltimore to-day the House of Bishops returned to the Deputies without concurrence the resolutions on Church unity. Rev. MONETARY AND COMMERCIAL.

NEW YORK, Oct. 24.—The dealings at the Stock Exchange during the first hour of business this morning were the largest recorded for a long time past. The fact that the London market for American securities came strong with prices above the parity of Thursday's closing imparted a very confident tone to the dealings, especially as foreign houses had liberal buying orders. The unexpectedly favorable character of Saturday's bank statement also stimulated purchases for long and short accounts. The advance in prices was equal to 3/2 per cent. At 11 o'clock the market was steady in tone with quotations a shade off from the highest.

Location—10th-st. building near Silk Department from 9 to 11 a. m.—1 to 4 p. m.

For seven years we have been selling the products of the

HASKELL SILK CO.,

whose sole agents we are for this city. The success we have had as such has induced the manager of the mill to consent to have an exhibition here in order to show the ladies of Washington how the fabrics, so much favored by them, are made. This mill claims what few other manufacturers of Black Silk goods can—to produce only pure dye fabrics. To each piece manufactured by them is attached their trade mark.

The opportunity is yours to secure a BLACK SILK DRESS under favorable conditions. A little later the rise in raw silk, caused by the great demand at present for silk fabrics, will prompt manufacturers to raise their prices.
